Albany, March 29.—Governor Morton is having a hard time to select a chief for the new liquor tax bureau. He admits that the salary of \$5,000 a year is not enough to attract the high class of men from whose ranks he desires to choose the Commissioner. The number of men in the State who are capable of taking hold of the new department, and who are at the same time stanch Republicans, is much more limited than would at first be supposed. In fact, several men who are notably capable have positively declined to accept the piace.

It is expected that consideration of the Sundry Civil Appropriation bill will be the first business of the House this week. The radical changes made by the bill will doubtless cause much discussion and several days may be spent over it. Pressure is yet being brought on exSenator Hendricks to get him to reconsider his refusal. He is one of the few men who have the necessary ability to fill the place, and who at the same time would not be politically offensive. He has ben out of work for some time past, and afflicted with a mild Manhattan Club's Wise Move in form of insanity that led him to believe he was being dragged by enemies from his bed. It is believed that he was in an insanefit last Saturday night when he took his life by opening a vein in his wrist with a razor. His brother, Thomas, who lives at No. 313 West One Hundred and Thirty-fourth street, visited his mother on Saturday night, and it was he who discovered his brother's suicide. The unfortunate man was in the bathroom, and had lost so much blood that he appeared to be dead. Jumping at that conclusion, the brother sent a messenger at once to Coroner Fitzpatrick, who responded and found the plasterer still alive. Two physicians were at work upon him, but he died at 9 o'clock yesterday morning.
